

Mega-crete

MULTI-PURPOSE PLASTER FOR WALLS & CEILINGS

Mega-crete is a new lightweight, multi-purpose plaster that provides a superior, smooth, white finish and is approved by a leading paint manufacturer.

WHY SHOULD YOU TRY MEGA-CRETE?

SUPERIOR WHITE FINISH

Mega-crete can be applied
from 3mm – 20mm thickness.
One product for all thicknesses.

Our breakthrough technology allows you to apply Mega-crete directly onto bricks, sand cement base coat & plaster boards, either by hand or machine.

Mega-crete can be applied in coastal and inland areas. One product fits any climatic condition.

**SMOOTH FINISH
LESS SANDING REQUIRED**

Our polypropylene bags are stronger and moisture resistant.

Mega-crete has a setting time of 40-60 minutes allowing for an extra bag to be applied at 3pm and completed before 4:30pm. Extra square meters per day!

HIGHER COVERAGE

Mega-crete contains no pesticides & bicocides making it a green friendly product.

Mega-crete

Coverage per 40kg bag:

2-3mm thickness	24m ²
5-6mm thickness	11m ²
12-15mm thickness	4.5m ²
15-20mm thickness	3.25m ²
